

OVEN AND BBQ KIT

CLEANING KIT FOR OVENS, BBQS, GRILLS, PANS AND ROASTING DISHES

User guide

DESCRIPTION:

The OVEN AND BBQ KIT is a complete cleaning system made of specific products designed for both routine and intensive cleaning of surfaces affected by baked-on grease, carbon residue, soot and stubborn black crusts. It is recommended for use on traditional kitchen ovens, BBQs, grills, cooking grates, roasting dishes and cookware, both for domestic and professional use, on compatible surfaces.

Thanks to the combined action of a powerful descaling cleaner, a degreasing maintenance cleaner and a dedicated buffer pad, the kit targets high-temperature dirt effectively. It makes removal easier and helps keep surfaces cleaner over time.

FIELDS OF APPLICATION:

Suitable for routine and intensive cleaning of surfaces exposed to burnt-on dirt, baked grease and soot, such as:

- traditional kitchen ovens
- BBQs and grills
- cooking grates
- roasting dishes, pots and pans
- fireplace and stove glass

Do not use on microwave ovens, or on mini ovens and uncoated or unenamelled aluminium surfaces.

CHARACTERISTICS:

The OVEN AND BBQ KIT is a complete cleaning system developed for effective oven and BBQ cleaning, as well as for heat-exposed surfaces affected by baked-on grease, carbon residue, soot and smoke stains. Thanks to the combined use of its products, it allows both intensive deep cleaning and regular maintenance, with a targeted approach depending on the type and level of dirt.

In particular:

- PULIFORNO® is a strong degreasing and descaling cleaning gel, recommended for intensive cleaning of grease deposits, black crusts, carbon residue and stubborn soot from ovens, BBQs and roasting dishes.
- PULIFUMO® is a powerful degreasing cleaner designed for routine cleaning of kitchen ovens, BBQs, fireplace and stove glass, pots and roasting dishes. It breaks down and removes carbon residue, grease deposits, soot and smoke stains from surfaces.
- The OVEN BUFFER PAD is a flexible nylon abrasive accessory that supports the action of the cleaners and makes it easier to remove softened dirt from ovens, grills, pots, roasting dishes, pans and convection ovens.

The OVEN AND BBQ KIT includes:

- 1 kg of PULIFORNO®
- 750 ml of PULIFUMO®
- 1 OVEN BUFFER PAD

INSTRUCTIONS FOR USE:

Use the products of the OVEN AND BBQ KIT only on cold surfaces.
Wear protective gloves and avoid direct contact with skin and eyes.

- For intensive cleaning, when dealing with encrustations, black crusts and burnt-on grease, use PULIFORNO® with the OVEN BUFFER PAD.
- For routine cleaning and regular maintenance, use PULIFUMO® with the OVEN BUFFER PAD, helping reduce carbon build-up and keep surfaces cleaner over time.
- After treatment, remove any product residue and rinse thoroughly with water.

Note: For more detailed information about application methods, contact time, compatible surfaces and coverage, please refer to the technical data sheets of each product.

PRECAUTIONS:

During use of the products included in the kit, it is recommended to wear protective gloves and avoid direct contact with skin and eyes.

Do not use on:

- microwave ovens
- mini ovens
- uncoated or unenamelled aluminium surfaces

NOTES:

Our recommendations are based on current research knowledge and are intended to give the best information to the buyer-user. However, these indications require preliminary examinations and tests to the fields of use, to the types of materials present and to the various conditions of application. The user decides independently on suitability and on the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

Before purchasing the products, it is recommended to [read the warnings and safety information](#) provided on the relevant product pages.

PULIFORNO®:

WARNINGS: DANGER

Hazard statements: Causes severe skin burns and eye damage.

Rev6-Ver030222

PACKAGING:

PULIFORNO® 1 kg + PULIFUMO® 750 ml + 1 OVEN BUFFER PAD

YIELD:

The coverage of the cleaners included in the OVEN AND BBQ KIT may vary depending on the level of dirt, the

contact time and the amount of product applied.

Indicatively:

- PULIFORNO® (1 kg) provides an average of 5 to 15 complete treatments, depending on the thickness of the encrustations and the presence of stubborn black carbonised crusts.
- PULIFUMO® (750 ml) provides an average of 10 to 16 complete cleanings for routine oven or BBQ maintenance, with the possibility of carrying out more treatments on smaller surfaces (baking trays, roasting dishes and cookware).

Regular use of the products helps keep surfaces cleaner over time and reduces the need for intensive deep cleaning.

Note: Actual coverage may vary depending on the level of dirt, the contact time and the amount of product applied to the surface. For further details, please refer to the technical data sheets of each product.

TECHNICAL DATA:

PULIFORNO®:

- Physical state: gelatinous liquid
- Specific weight (g / cm3): 1.09
- pH: 14
- Flash point (ASTM): not flammable
- Solubility in water: partially soluble in water.
- Odour: odourless

PULIFUMO®:

- Physical state: straw-yellow liquid.
- Specific gravity (g/cm3): 1,06
- pH (20°C) of the pure product: 14
- Flame point (ASTM): > 90°C
- Solubility in water: soluble
- Odour: odourless

STORAGE:

Store the product tightly closed and out of the reach of children, in a cool and well-ventilated place, and do not expose it to direct sunlight for long periods.

SHELF LIFE: When stored correctly, the product has a shelf life of 5 years.
