

BATHROOM MAINTENANCE KIT

COMPLETE KIT FOR BATHROOM CLEANING AND MAINTENANCE

User guide

DESCRIPTION:

The BATHROOM MAINTENANCE KIT is a cleaning system composed of specific products designed for both routine bathroom cleaning and deeper descaling treatments on surfaces affected by limescale, soap residues, humidity stains and toilet scale. It is suitable for use on sanitary fixtures, taps, shower enclosures, glass, wall tiles and grout lines in domestic environments, on compatible surfaces.

The combined action of limescale removers, descaling cleaners, a sanitizing whitening detergent and a protective cleaner for daily maintenance, together with dedicated technical accessories, allows you to treat dirt according to the level of buildup. This approach helps simplify removal and contributes to keeping bathroom surfaces cleaner and easier to maintain over time.

FIELDS OF APPLICATION:

Suitable for routine and deep cleaning of bathroom surfaces affected by limescale, soap residues, humidity stains and scale deposits, such as:

- shower walls and wall tiles
- shower enclosure glass panels
- sanitary fixtures
- taps and fittings
- bathtubs
- washbasins
- mirrors
- tile grout lines

Use on compatible surfaces such as:

- ceramic
- metals (stainless steel and chrome)
- glass
- plastic laminate

Do not use limescale removers on:

- marble
- travertine
- slate
- materials not resistant to acidic substances

CHARACTERISTICS:

The BATHROOM MAINTENANCE KIT is a cleaning system designed for the effective treatment of bathroom surfaces affected by limescale, soap residues, humidity stains and scale deposits on sanitary fixtures. The combined action of the products allows you to manage both daily maintenance and deeper descaling treatments progressively, depending on the type and level of dirt present.

In particular:

- SANI-KAL FORTE removes stubborn limescale deposits, mineral residues and layered dirt from compatible bathroom surfaces, helping restore cleanliness and shine;
- PULIMUFFE® helps remove stains and organic deposits in humidity-prone areas, improving the appearance of surfaces and grout lines;
- SHOWER BRILL acts on residues left by water and forms an invisible protective film that reduces the adhesion of limescale and soap residues, making daily maintenance easier;
- DISINKROSTO WC® is an acidic descaling gel that adheres to vertical toilet surfaces and helps remove limescale, oxides and organic deposits even in hard-to-reach areas;
- the accessories STEEL-T CLEANING CLOTH | FILMOP, EASYCLEAN 900.054 Grout Cleaning Brush and SPONGICLEAN MARBEC support the cleaning action through targeted mechanical scrubbing, improving the overall effectiveness of the treatment and the final finish of the surfaces.

INSTRUCTIONS FOR USE:

Use the products in the BATHROOM MAINTENANCE KIT according to the surface and the type of dirt.

- For limescale deposits and layered dirt on compatible surfaces: spray SANI-KAL FORTE, scrub with STEEL-T CLEANING CLOTH | FILMOP, leave for a few minutes and rinse with water. Approximate coverage: 750 ml / 10–15 m².
- For stains and organic deposits on humidity-prone surfaces: spray PULIMUFFE®, leave for a few minutes and scrub. For grout lines use the EASYCLEAN 900.054 Grout Cleaning Brush. For heavy deposits allow a longer contact time (30–60 minutes) before rinsing with clean water. Approximate coverage: 1 L / 7–10 m².
- For daily maintenance of frequently wet surfaces: spray SHOWER BRILL directly onto the still-wet surface (for example after showering), leave for a few minutes and rinse with water. For the first application or on heavily scaled surfaces, apply only on clean, descaled and dry surfaces.
- For scale and deposits in the toilet: apply DISINKROSTO WC® along the inner rim and vertical surfaces, leave for 15–20 minutes, scrub with SPONGICLEAN MARBEC and flush to rinse. Repeat if necessary.

Note: For detailed application methods, contact times, coverage rates and compatible surfaces, consult the technical data sheets of the individual products.

PRECAUTIONS:

When using the products included in the kit, it is recommended to wear protective gloves and avoid direct contact with skin and eyes. Do not mix the products with bleach or chlorine-based cleaners.

Do not use limescale removers on:

- polished limestone surfaces (e.g. marble and travertine)
- polished terrazzo surfaces
- black slate
- materials not resistant to acidic substances

Do not use on:

- wood, especially if unpainted
- absorbent materials treated with wax (e.g. terracotta)
- polished marble

With PULIMUFFE®:

- protect metal and textile surfaces from direct contact
- the product may dull methacrylate; use caution near bathtubs made of this material
- on painted surfaces or coloured plaster, first test on a small area to check for possible colour changes

With SANI-KAL FORTE:

- do not use on slate, marble, travertine or polished terrazzo
- do not use on materials not resistant to acidic substances

With DISINKROSTO WC®:

- do not use on taps, metals or acid-sensitive surfaces (marble, travertine, terrazzo, limestone, wood)
- protect nearby surfaces during application
- do not mix with chlorine-based products
- immediately remove any splashes by rinsing thoroughly with water
- if in doubt, test first on a small hidden area

Note: For more detailed information, consult the technical data sheets of the individual products.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

Before purchasing the products, please **read the warnings and risk information** on the respective product pages.

PACKAGING:

- n. 1 750 ml spray bottle in PE of SANI-KAL FORTE
- n. 1 750 ml spray bottle in PE of PULIMUFFE®
- n. 1 750 ml spray bottle in PE of SHOWER BRILL
- n. 1 1 L bottle in PE of DISINKROSTO WC®
- n. 1 STEEL-T CLEANING CLOTH | FILMOP
- n. 1 EASYCLEAN 900.054 GROUT CLEANING BRUSH
- n. 1 SPONGICLEAN MARBEC

YIELD:

For detailed information about approximate coverage, the number of possible treatments and the recommended conditions of use, please consult the technical data sheets of the individual products included in the kit.

TECHNICAL DATA:

For detailed technical data on each cleaner and accessory included in the kit, please consult the technical data sheets of the individual products.

STORAGE:

For detailed information on storage conditions, please consult the technical data sheets of the individual products included in the kit.
