

MAGIC SPONGE MARBEC

MELAMINE MAGIC SPONGE FOR REMOVING STAINS AND MARKS FROM HOUSEHOLD SURFACES

User guide

DESCRIPTION:

MAGIC SPONGE MARBEC is a melamine sponge designed for removing stains, streaks, and surface marks from walls, doors, skirting boards, laminates, plastics, and other hard surfaces. When slightly dampened, it works through micro-abrasion, allowing effective cleaning even without detergents. It is ideal for quick household cleaning tasks, especially on localized dirt and marks that are difficult to remove with traditional cloths or sponges.

FIELDS OF APPLICATION:

Effective for cleaning household surfaces affected by stains, streaks, and surface marks.

Suitable for cleaning applications on:

- walls
- doors
- skirting boards
- plastic surfaces
- laminates
- window and door frames
- furniture
- non-glossy hard surfaces
- areas subject to marks and localized dirt

CHARACTERISTICS:

- Removes stains, streaks, and surface marks even without detergents
- Works through controlled micro-abrasion on stubborn dirt
- Ensures effective and fast cleaning of household surfaces
- Improves surface appearance by eliminating visible residues
- Easy to use for targeted cleaning in daily household tasks

INSTRUCTIONS FOR USE:

- Slightly dampen the sponge with water
- Squeeze to remove excess water
- Gently rub the surface with light and controlled movements
- Work on small areas at a time for an even result
- Remove any residue with a soft dry cloth
- After use, rinse the sponge and let it dry

PRECAUTIONS:

- Do not use on glossy, painted, or delicate surfaces
- May cause dulling or micro-scratches on sensitive materials
- Always perform a preliminary test on a hidden area
- Use with light movements without applying excessive pressure
- Keep out of reach of children
- Do not use on skin or on surfaces in direct contact with food without rinsing afterward

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application.
