

DETERSIVO BELBUCATO® AGRUMOSO

CONCENTRATED LIQUID LAUNDRY DETERGENT FOR HAND WASHING AND MACHINE WASHING WITH CITRUS FRAGRANCE

User guide

DESCRIPTION:

DETERSIVO BELBUCATO® AGRUMOSO is a concentrated liquid laundry detergent formulated with surfactants and soaps for both hand washing and machine washing. It is suitable for the everyday care of natural and synthetic fabrics and helps remove everyday dirt and common stains, even at low temperatures. In addition, it helps preserve colours and fabrics over time. Its formula leaves garments with a fresh and long-lasting citrus fragrance, giving laundry a pleasant feeling of freshness after every wash.

FIELDS OF APPLICATION:

Recommended for everyday hand washing and machine washing on:

- natural fabrics
- synthetic fabrics
- coloured garments
- everyday household laundry
- garments washable at low temperatures

CHARACTERISTICS:

DETERSIVO BELBUCATO® AGRUMOSO is a concentrated liquid laundry detergent for hand washing and machine washing, formulated for everyday laundry care. In particular:

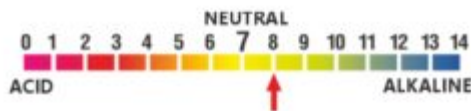

- helps remove everyday dirt and common stains, even at low temperatures;
- cleans fabrics without leaving visible residues, helping keep laundry clean and well cared for;
- helps preserve colours and fabrics over time thanks to its surfactant and soap-based formula;
- leaves garments with a fresh and long-lasting citrus fragrance after every wash;
- is suitable for washing natural and synthetic fabrics both by hand and in the washing machine.

INSTRUCTIONS FOR USE:

Use the product according to the recommended dosage, adjusting the amount based on the level of dirt, water hardness, and washing method.

- Hand Washing: dilute the detergent in water and soak the laundry. Gently agitate the garments, leave the product to act for the required time, then rinse thoroughly with clean water. Use approximately 35 ml of product per 10 litres of water.
- Machine Washing: pour the recommended amount into the washing machine drawer or dosing ball and start the desired wash cycle. Adjust the dosage according to the washing machine load size and the level of dirt on the garments.

For particularly stubborn dirt, increase the dosage slightly or extend the soaking time before washing.

CORRECT DOSAGE				
CHECK WATER HARDNESS IN YOUR AREA	4-5 Kg		6-8 Kg	
	Normal dirt	Very dirty	Normal dirt	Very dirty
SOFT/SLIGHTLY HARD	50-70ml	90-110ml	100-120ml	150-170ml
HARD/VERY HARD	70-90ml	110-130ml	120-150ml	170-190ml
MINI LOAD OR HALF LOAD: 50ml	HAND WASHING: 33ml in 10L	SEE TARE BOXESD 4-5kg: 50ml 6-8kg: 33ml		

PRECAUTIONS:

Before use, always check the washing instructions provided on garment care labels. For delicate fabrics or special textile treatments, carry out a preliminary test before full application.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

UFI: E4K0-R0GS-P00N-7CHM

Rev1-Ver13022025

PACKAGING:

- 1 litre PE bottle – boxes of 6 pieces
- 5 litre PE canister – boxes of 4 pieces

YIELD:

The product coverage depends on the level of dirt on the garments, water hardness, the selected wash cycle, and the dosage used.

With a 1 litre bottle of DETERSIVO BELBUCATO® AGRUMOSO, you can achieve approximately:

- Everyday laundry with light dirt
For lightly soiled garments and reduced dosages, one bottle can provide up to 20 washes, helping keep fabrics clean and pleasantly scented.
- Washing normally soiled garments
For everyday household laundry with standard dosages, a 1 litre bottle provides approximately 15–18 washes, depending on washing machine load size and water hardness.
- Hand washing laundry

Using approximately 35 ml of product per 10 litres of water, the coverage may vary depending on the quantity of garments treated and the required soaking time.

- Heavily soiled garments

For stubborn dirt or particularly intensive washing, increasing the dosage may become necessary, reducing the total number of achievable washes.

Regular use and correct dosage help optimise product coverage while keeping laundry fresh and clean over time.

TECHNICAL DATA:

- Physical state: yellow viscous liquid
- Odour: characteristic
- Specific gravity (g/cm³): 1.035
- pH (20 °C) of pure product: 9.5 – 10.5
- Flash point (ASTM): non-flammable
- Water solubility: soluble

STORAGE:

Store the product tightly closed at a temperature between 5 °C and 30 °C, avoiding prolonged exposure to direct sunlight. When stored at low temperatures (< 10 °C), the product may become more viscous without affecting its use or performance. Under these storage conditions, the product has a shelf life of 2 years.
