

AMMORBIDENTE BELBUCATO® MORBIDOSO

CONCENTRATED LIQUID FABRIC SOFTENER WITH MARSEILLE FRAGRANCE

User guide

DESCRIPTION:

AMMORBIDENTE BELBUCATO® MORBIDOSO is a concentrated liquid fabric softener formulated for both hand washing and washing machines. It helps make fabrics softer and more pleasant to the touch while leaving garments with a fresh and long-lasting Marseille fragrance after every wash. The product is suitable for everyday laundry care on natural and synthetic fabrics and is ideal when paired with DETERSIVO BELBUCATO® MARSIGLIA from the same line.

FIELDS OF APPLICATION:

Suitable for everyday hand washing and machine washing on:

- natural fabrics
- synthetic fabrics
- coloured garments
- common household laundry
- garments washable at low temperatures

CHARACTERISTICS:

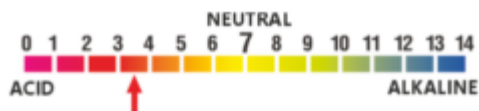

AMMORBIDENTE BELBUCATO® MORBIDOSO is a concentrated liquid fabric softener for hand washing and washing machines, formulated to leave fabrics soft and pleasantly scented after every wash. In particular:

- it helps make garments softer and more comfortable to the touch after washing;
- it leaves fabrics with a fresh and long-lasting Marseille fragrance;
- it helps give laundry a pleasant feeling of freshness and cleanliness;
- it is ideal when paired with DETERSIVO BELBUCATO® MARSIGLIA to achieve an even more intense and coordinated fragrance;
- it is suitable for everyday laundry care on natural and synthetic fabrics, both for hand washing and washing machines.

INSTRUCTIONS FOR USE:

For correct product use, always follow the washing instructions shown on garment care labels and adjust the dosage according to the desired fragrance intensity and fabric softness.

- In the washing machine: pour the product into the dedicated fabric softener compartment and start the desired wash cycle. For laundry loads up to 5 kg, use approximately 50 to 100 ml of product.
- Hand washing: after rinsing the laundry, dilute about 50 ml of product in every 10 litres of water. Soak the garments for a few minutes and then proceed with the final rinse.

PRECAUTIONS:

Before use, always check the washing instructions provided on garment care labels. For delicate fabrics or special textile treatments, carry out a preliminary test before full application.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

PACKAGING:

- 1 litre PE bottle – boxes of 6 pieces
- 5 litre PE canister – boxes of 4 pieces

YIELD:

Product performance depends on the dosage used, the amount of laundry treated, and the desired fragrance intensity.

With one 1-litre bottle of AMORBIDENTE BELBUCATO® MORBIDOSO, it is possible to achieve approximately:

- Everyday laundry with reduced dosage
Using around 50 ml of product per wash, one bottle provides approximately up to 20 washes while keeping fabrics soft and pleasantly scented.
- Laundry with more intense fragrance
Using higher dosages of around 100 ml per wash, one 1-litre bottle provides approximately up to 10 washes, leaving garments with a more intense and long-lasting fragrance.
- Hand washing laundry
Using around 50 ml of product for every 10 litres of water during the final rinse cycle, product performance may vary depending on the amount of garments treated.
- Use on large laundry loads
For large loads or highly absorbent fabrics, it may be necessary to slightly increase the dosage of product, proportionally reducing the total number of possible washes.

Regular use and correct dosage help optimise product performance while keeping laundry soft and pleasantly scented over time.

TECHNICAL DATA:

- Physical state: pinkish viscous liquid
- Odour: characteristic
- Specific gravity (gr/cm3): 1.000
- pH (20 °C) of pure product: 3.0 +/- 0.5
- Flash point (ASTM): non-flammable
- Water solubility: soluble

STORAGE:

Store the product tightly closed at a temperature between 5 °C and 30 °C, avoiding prolonged exposure to direct sunlight. When stored at low temperatures (< 10 °C), the product may become more viscous without affecting its use or performance. Under these storage conditions, the product has a shelf life of 2 years.
