

PULITORE FC

CLEANER FOR REMOVING SMOG FROM FACADES

User guide

DESCRIPTION:

Strong alkaline solution in gel form.

FIELDS OF APPLICATION:

Specific cleaner for the cleaning of the facades in stone materials such as: cotto, stone, glazed and unglazed ceramic, klinker, porcelain tiles, cement, grit, etc.

CHARACTERISTICS:

PULITORE FC is a strong alkaline solution specific for the cleaning of walls made of stone materials.

PULITORE FC:

- is a gel product easy to apply, especially in vertical;
- degreases the surfaces by removing in depth crusts of smog, air pollution, fatty substances and organic encrustations;
- can also be used for cleaning vertical surfaces blackened by fire smoke;
- is odorless, does not contain solvents and is biodegradable.

INSTRUCTIONS FOR USE:

It is used pure.

- Apply PULITORE FC with synthetic fiber brush on the surface and let it act at least 20-40 minutes;
- Rub the surface with plastic fiber buffers or with nylon brushes;
- On very porous materials it is recommended to neutralize PULITORE FC with diluted acid solution (e.g. 1:10 solution of DELICACID);
- Finally, rinse with pressure washer or with plenty of water until the product is completely removed.

PRECAUTIONS:

- Do not use on painted surfaces, anodized aluminum and wood.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

WARNINGS: DANGER

Hazard statements: Causes severe skin burns and eye damage.

Precautionary statements: Wear protective gloves / clothing and eye / face protection. – IF SWALLOWED: Immediately call a POISON CENTER or doctor / physician. – IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water / shower. – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Contains: Sodium hydroxide

PACKAGING:

- 5 kg conf. Bucket – box 4 pieces.

YIELD:

Depending on the dirt to be removed and the absorption of the material.

- Average 1lt/ 4 – 8 m2 each coat.

TECHNICAL DATA:

- Physical state: yellowish gelatinous liquid
- Specific gravity (g/cm3): 1,09
- pH (20°C) of the pure product: 14
- Flame point (ASTM): non-flammable
- Solubility in water: partially soluble in water.

STORAGE:

Keep the product tightly closed and at a temperature between 5 and 30 °C in an aerated environment, away from heat sources and not exposed to sunlight for a long time. When stored at low temperatures (<10 °F) the product can become dense, but without affecting its use or performance. The stored product has a useful life of 5 years.
