

RED BUFFER PAD | Low Abrasion

LOW-ABRASION RED BUFFER PAD FOR DEEP CLEANING AND WAX RESIDUE REMOVAL

User guide

DESCRIPTION:

RED BUFFER PAD is a rectangular low-abrasion synthetic fibre pad designed for deep cleaning and wax removal from floors and surfaces. It effectively removes stubborn dirt, surface build-up and maintenance wax residues while respecting terracotta, natural stone, marble, cement-based agglomerates, wood and resilient flooring. Washable and reusable, it is the ideal accessory for enhancing the cleaning action of Marbec products during demanding maintenance work.

FIELDS OF APPLICATION:

Ideal for:

- terracotta, natural stone and marble
- cement-based agglomerates
- wax-treated floors
- oil-treated wood
- resilient flooring, including PVC, linoleum, rubber, SPC and WPC

Perfect for:

- deep cleaning
- wax removal and the elimination of wax residues
- removing stubborn dirt
- preparing surfaces for subsequent treatments

CHARACTERISTICS:

RED BUFFER PAD is a low-abrasion synthetic fibre pad designed for deep cleaning and wax removal. In particular, it:

- effectively removes stubborn dirt, surface build-up and maintenance wax residues;
- enhances the mechanical action of cleaning products during deep cleaning and wax removal;
- cleans terracotta, natural stone, marble, cement-based agglomerates and resilient flooring while respecting the surfaces;
- prepares materials for subsequent treatments by removing surface build-up, dirt and wax residues;
- can also be used dry to remove black rubber shoe marks from oil-treated wood floors and wax-treated surfaces.

Made from chemical-resistant synthetic fibres, it is washable, reusable and maintains its performance over time.

INSTRUCTIONS FOR USE:

Use the RED PAD with the appropriate Marbec cleaning product, according to the type of cleaning required:

- For the deep cleaning of wax-treated terracotta, natural stone and cement-based agglomerates, use with UNIPUL®;
- For removing wax from delicate natural stone, marble and cement-based agglomerates, use with SGRISER®;
- For descaling and post-installation cleaning of acid-resistant, non-polished natural stone, marble and cement-based agglomerates, use with DELICACID®;
- For removing wax from resilient flooring such as PVC, linoleum, rubber, SPC and WPC, use with STRIP RESIL;
- To remove black rubber shoe marks from oil-treated wood floors and wax-treated surfaces, the RED PAD can also be used dry.

Apply even pressure to the surface and scrub until the dirt or residues have been completely removed. After use, rinse the pad with clean water and allow it to dry before using it again.

PRECAUTIONS:

- Always check that the pad is compatible with the surface before use.

- On particularly delicate materials, carry out a preliminary test on a small, inconspicuous area.
- After use, wash the pad with clean water and allow it to dry before using it again.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

PACKAGING:

- Single pad – pack of 1

YIELD:

Approximately 30–70 m², depending on the roughness of the surface.

TECHNICAL DATA:

- Material: low-abrasion synthetic fibres
- Shape: rectangular pad
- Dimensions: 250 × 115 × 25 mm
- Colour: red
- Chemical resistant
- Easily washable with water
- Reusable multiple times

STORAGE:

Store in a clean, dry place. After use, wash with water and allow to dry before storing.
