

BLUE BUFFER PAD | Light Abrasion

LIGHT ABRASIVE BLUE BUFFER PAD IN SYNTHETIC FIBERS FOR DEEP CLEANING AND STAIN REMOVAL

User guide

DESCRIPTION:

The BLUE BUFFER PAD is a lightly abrasive synthetic fiber pad designed for deep cleaning and surface restoration on materials such as porcelain stoneware, ceramic, stainless steel, and wood. Its durable structure helps remove stubborn dirt, surface films, and stains without aggressive action, while enhancing the effectiveness of cleaning and stain removal products. Washable and reusable, it provides a professional cleaning solution for achieving cleaner, more even surfaces.

FIELDS OF APPLICATION:

Ideal for cleaning and stain removal on:

- porcelain stoneware
- ceramic
- natural stone
- wood and decking
- stainless steel
- surfaces with stubborn dirt, films, and halos

Recommended for:

- removing construction residues and post-installation dirt
- eliminating greying and stains from wood
- removing stains from contaminated and oxidized surfaces
- improving surface uniformity and overall cleanliness

CHARACTERISTICS:

The BLUE BUFFER PAD is a lightly abrasive synthetic fiber pad designed to support deep cleaning and surface stain removal. In particular:

- it helps remove stubborn dirt, surface films, and construction residues from hard surfaces;
- it enhances the effectiveness of cleaners during cleaning and decontamination processes;
- it facilitates the removal of greying, stains, and surface alterations on wood;
- it is ideal for deep cleaning interventions on porcelain stoneware and ceramic;
- it helps even out surfaces, improving their aesthetic appearance;
- it can be used on different materials depending on the type of cleaner applied.

Made of chemical-resistant synthetic fibers, it is washable, reusable, and maintains its performance over time.

INSTRUCTIONS FOR USE:

Use the BLUE BUFFER PAD in combination with Marbec products, depending on the surface type and the level of dirt to be removed:

- Apply the specific cleaner to the surface to be treated;
- Work with the pad using a uniform manual action;
- Rub the surface to facilitate the removal of dirt, films, and residues;
- Adjust the pressure according to the material and the level of dirt;
- Rinse or remove residues following the instructions of the cleaner used.

In the presence of stubborn dirt or persistent films, increase the contact time of the cleaner and repeat the operation.

After use, wash the pad with water to maintain its effectiveness and allow reuse.

Use the BLUE BUFFER PAD in combination with Marbec products according to your deep cleaning and stain removal needs:

- For post-installation descaling cleaning of porcelain stoneware, use with POWER DET®;

- For deep stain removal and decontamination of porcelain stoneware, use with POWER DET®;
- For intensive degreasing cleaning of porcelain stoneware floors in domestic environments, use with GRES LINDO®;
- For deep descaling cleaning of porcelain stoneware floors, use with GRES BRILL®;
- For intensive degreasing of heavily trafficked or outdoor surfaces in stoneware and ceramics, use with MICRONET®;
- For descaling cleaning of outdoor surfaces and ceramic coverings, use with DELICACID®;
- For removing stains from wood and decking exposed to weather, use with SMACCHIO LEGNO®;
- For removing rust stains from natural stone, use with TOGLIRUGGINE LIQUIDO®;
- For polishing and reducing micro-scratches on stainless steel, use with CREAM INOX®.

Apply using a uniform manual action on the surface until the desired level of cleanliness is achieved, avoiding excessive pressure on delicate materials.

PRECAUTIONS:

Use on surfaces compatible with light abrasive action.

- always carry out a preliminary test on a small area;
- do not use on delicate, polished, or easily scratched surfaces;
- do not apply excessive pressure on sensitive materials;
- check compatibility on special or treated finishes.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

PACKAGING:

- Single pad – pack of 1 piece

YIELD:

Estimated coverage: 30–70 m² depending on surface roughness.

TECHNICAL DATA:

- Dimensions: 250 x 115 x 25 mm
- Color: blue
- Action: controlled light abrasion
- Material: chemical-resistant synthetic fibers
- Maintenance: washable with water
- Reuse: reusable multiple times

STORAGE:
