

WHITE BUFFER PAD | No Abrasion

WHITE NON-ABRASIVE BUFFER PAD IN SYNTHETIC FIBERS FOR DELICATE CLEANING AND POLISHING

User guide

DESCRIPTION:

WHITE BUFFER PAD is a non-abrasive synthetic fiber sponge designed for cleaning and polishing delicate surfaces such as polished marble, mirrors, furniture, metals, and wax-treated floors. Its soft yet durable structure allows you to work without scratching or dulling surfaces, ensuring controlled and safe action. Washable and reusable, it helps improve the effectiveness of cleaners and finishing products during cleaning and maintenance operations.

FIELDS OF APPLICATION:

Ideal for cleaning and polishing:

- polished marble
- mirrors
- furniture
- kitchen hoods
- delicate surfaces
- metals such as steel, copper, silver, and silver-plated surfaces
- wax-treated floors

Suitable for:

- cleaning delicate surfaces without scratching
- polishing metals and glossy surfaces
- enhancing wax finishes on floors

CHARACTERISTICS:

WHITE BUFFER PAD is a non-abrasive synthetic fiber sponge designed to support the cleaning and polishing of delicate surfaces. In particular:

- it allows you to clean sensitive surfaces without scratching or dulling materials;
- it improves the distribution and effectiveness of cleaners during application;
- it makes polishing metals and glossy surfaces easier, enhancing their shine;
- it is suitable for enhancing wax finishes on treated floors;
- it is typically used in combination with Marbec products based on cleaning and finishing needs;
- it can be used with specific cleaners and products for glass, metals, stone materials, and wooden surfaces.

Made of chemical-resistant synthetic fibers, it is washable, reusable, and maintains its performance over time.

INSTRUCTIONS FOR USE:

Use the WHITE BUFFER PAD in combination with Marbec products, depending on the cleaning and polishing needs:

- For cleaning window frames and fixtures, use with PULI INFISSI;
- For cleaning glass, mirrors, and glossy surfaces, use with VETRONET;
- For descaling glass, crystals, and sanitary surfaces, use with SANI-KAL FORTE;
- For cleaning and polishing stainless steel and aluminum surfaces, use with CREAM INOX or LUXORY METAL;
- For cleaning and polishing metals, use with METALUX;
- For dry polishing polished marble and granite surfaces, use with LUXOR;
- For dry polishing absorbent stone materials, use with IDROFIN LUCIDO or POLIFIN;
- For dry polishing maintenance treatments on stone materials, use with REFIX LUCIDO;
- For dry polishing oil-treated wooden surfaces, use with BIOTOP;
- For dry polishing varnished wooden floors, use with LIGNOLIFE;
- For dry polishing waxed wooden floors, use with CAREZZA PLUS or LIGNOLUX;
- For dry polishing oiled wooden floors, use with BIOCARE.

Apply with a uniform manual action over the surface until the desired level of cleaning or shine is achieved, without applying excessive pressure.

PRECAUTIONS:

None.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

PACKAGING:

- Single pad – pack of 1 piece

YIELD:

Coverage: approximately 30–90 m² depending on surface roughness.

TECHNICAL DATA:

- Material: non-abrasive synthetic fibers
- Structure: rectangular sponge
- Dimensions: 250 x 115 x 25 mm
- Color: white
- Chemical-resistant
- Washable with water
- Reusable multiple times

STORAGE:
