

PULI TEX

SPECIFIC CLEANER FOR UPHOLSTERY FABRICS CLEANING AND STAIN REMOVAL

User guide

DESCRIPTION:

PULI TEX is an alkaline cleaning solution based on inorganic salts, developed for routine cleaning and effective removal of dirt and stains from upholstery fabrics. It is suitable for use on sofas, carpets, rugs, car interiors and eco-leather, on compatible surfaces.

FIELDS OF APPLICATION:

Suitable for cleaning and removing dirt and stains from:

- fabric sofas
- carpets
- rugs
- car upholstery
- eco-leather surfaces

CHARACTERISTICS:

PULI TEX is a specific cleaner for upholstery fabrics cleaning and stain removal. In particular:

- quickly removes dirt and stains, even stubborn ones, from fabrics;
- acts deep into the fibres without leaving marks;
- is suitable for routine cleaning of sofas, carpets and rugs;
- is also suitable for car upholstery and eco-leather;
- does not contain strong alkalis or solvents and is characterized by low foaming.

INSTRUCTIONS FOR USE:

Ready-to-use product.

- Spray onto the surface to be cleaned or treated.
- Leave to act for a few minutes.
- Rub the surface with a sponge, blue pad or soft microfiber cloth.
- Blot the residue with a dry cloth.
- Repeat if necessary.
- Finally, rinse the surface with a cloth dampened with water.

PRECAUTIONS:

Do not use on:

- surfaces not resistant to water and moisture (e.g. wood, paper)

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.
Rev5-Ver060422

WARNINGS:

Hazard statements: Safety data sheet available on request.

Ingredients in accordance with Regulation (EC) No 648/2004:
phosphates between 5% and 15%, 1,2-benzisotiazol-3(2H)-one, Na pyrrithione.

PACKAGING:

- 750 ml PE Spray bottle – box of 6 pieces
- 5 L PE canister – boxes 4 pieces

YIELD:

The product yield depends on the level of dirt, the type of fabric and the amount applied on the surface.

With a 750 ml pack, it is possible to obtain approximately:

- Maintenance cleaning of fabrics and upholstery
In the case of regularly cleaned surfaces, one pack allows numerous localized applications on sofas, carpets and rugs, with targeted use on dirty areas.
- Cleaning of fabrics with medium dirt
In the presence of widespread stains or frequent use, 750 ml allow several full treatments on medium-sized textile surfaces, depending on material absorption.
- Treatment of localized stains
For single stains or limited areas, one pack allows numerous targeted applications, thanks to direct application and low foaming.
- Stubborn dirt
In the presence of persistent or layered stains, it may be necessary to increase the contact time and the amount of product, resulting in a reduction in the number of possible treatments.

Regular and preventive use helps keep fabrics cleaner over time and optimizes the overall product yield.

TECHNICAL DATA:

- Physical state: colourless liquid
- Specific gravity (g/cm³): 1,084
- pH (20°C) pure: 9
- Flame point (ASTM): > 90°C
- Solubility in water: soluble in water.
- Odour: characteristic

STORAGE:

Keep the product tightly closed at temperatures between 0 °C and +30 °C and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.
