

SMACCHIO LIQUIDO

WHITENING STAIN REMOVER FOR THE REMOVAL OF ORGANIC STAINS ON STONE MATERIALS

User guide

DESCRIPTION:

Stabilized hydrogen peroxide solution and surfactants.

FIELDS OF APPLICATION:

Ready-to-use stain remover for removing organic stains from stone materials. It can be used both indoors and outdoors.

CHARACTERISTICS:

SMACCHIO LIQUIDO is a specific stain remover to remove colored stains of organic origin from floors such as cotto, stone, marble, cement agglomerates, porcelain tiles, ceramic materials and wood.

SMACCHIO LIQUIDO:

- cleans and whitens the surfaces by removing stains of coffee, wine, fruit, blood, urine, tannin, cardboard, flowers, leaves, algae and mould from floors soiled with stone material;
- cleans and whitens cement joints;
- it is biodegradable, non-toxic, non-flammable, odorless;
- is harmless to the environment;
- leaves no residue on the material.

INSTRUCTIONS FOR USE:

- Spread the product until the stained tile is completely covered;
- Allow the time necessary to remove the stain (from a few minutes to a few hours);
- Rinse with water by rubbing the surface with soft cloth or on external surfaces with red pads or discs or pressure washer;
- Repeat the application if necessary.

Do not apply SMACCHIO LIQUIDO on metals, on too-hot surfaces, and on glossy limestone stones (e.g. marble and travertine) or slate.

PRECAUTIONS:

- protect metal surfaces. Do not apply to metals and overly hot surfaces;
- do not use on polished limestone stones (e.g. marble and travertine) or slate.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

Contains: HYDROGEN PEROXIDE SOLUTION, oxirane, 2-methyl-, polymer.

UFI: D110-00SU-R00H-M7TF

Rev6-Ver010222

PACKAGING:

- 500ml Plastic bottle box 6pcs;
- 5 lt Plastic jerrycan box 4 pcs.

YIELD:

Depending on the absorption of the material: with 500 ml about 2-4m² of surface.

TECHNICAL DATA:

- Physical state: liquid, dense, transparent, colourless.
- Specific gravity (g/cm³) at 20 °C: 1.04
- pH: 5
- Solubility in water: soluble.

STORAGE:

Keep the product tightly closed at temperatures between 0 °C and +30 °C and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.
