

INDOOR WAXED MATT TERRACOTTA AND STONE MAINTENANCE KIT

INDOOR MATT TERRACOTTA AND STONE MAINTENANCE KIT

User guide

DESCRIPTION:

The INDOOR WAXED MATT TERRACOTTA AND STONE MAINTENANCE KIT is a complete system for cleaning and maintaining absorbent indoor surfaces made of terracotta, natural stone and cement-based agglomerates with a matt wax finish. It supports routine and periodic cleaning while helping preserve the aesthetic and protective properties of the original treatment over time.

FIELDS OF APPLICATION:

Suitable for maintaining previously treated, absorbent indoor surfaces with a matt wax finish, including:

- terracotta floors
- absorbent natural stone floors
- cement-based agglomerate floors

CHARACTERISTICS:

The INDOOR WAXED MATT TERRACOTTA AND STONE MAINTENANCE KIT is a complete system for cleaning and maintaining previously treated, absorbent indoor surfaces with a matt wax finish. The combined action of the products supports daily, periodic and deep cleaning while renewing surface protection affected by normal wear. As a result, it helps preserve the aesthetic and protective properties of the original treatment over time.

In particular:

- FLORA cleans and degreases terracotta, natural stone and cement-based agglomerates without damaging stone materials or wax treatments and without leaving dull streaks;
- REFIX MATT renews surface protection and preserves the aesthetic and protective properties of the original finish, maintaining its matt appearance without forming glossy films or coatings;
- PULI-SCRUB helps collect dirt and supports effective cleaning on rough, microporous or irregularly textured surfaces;
- SMART-FUR collects dust and dirt, absorbs the cleaning solution and is suitable for evenly applying waxes and maintenance products;
- the professional handle and articulated mop frame with Velcro system complete the cleaning and maintenance system, making it easier to use the mops on the surfaces being treated.

INSTRUCTIONS FOR USE:

Use the products in the kit according to the type of maintenance required.

- For daily cleaning: dilute 10–20 ml of FLORA in 5 litres of water and apply with PULI-SCRUB as you would a standard floor cleaner.
- For periodic cleaning: dilute 30–50 ml of FLORA in 5 litres of water and apply with PULI-SCRUB as you would a standard floor cleaner.
- For deep cleaning: dilute 250–500 ml of FLORA in 1 litre of water, spread the solution over the floor and leave it to work for a few minutes. Scrub the surface, then rinse thoroughly with clean water.
- For maintaining the matt wax finish: apply REFIX MATT to clean and completely dry surfaces. Shake before use, apply small amounts of product and spread evenly with SMART-FUR. Then allow the surface to dry without walking on it.

Recommended frequency for REFIX MATT: every 4–6 months on heavily trafficked surfaces subject to significant wear; every 12 months on lightly trafficked surfaces.

N.B. For detailed application methods, drying times, coverage and further directions for use, refer to the technical data sheets for the individual products.

PRECAUTIONS:

Use the kit exclusively for cleaning and maintaining surfaces that are compatible with the products included.

- before application, check that the products are suitable for the material and existing treatment
- apply REFIX MATT only to clean and completely dry surfaces
- do not walk on the surface while REFIX MATT is drying
- to preserve the matt wax finish, avoid strongly alkaline cleaners, ammonia-based cleaners and solvents

N.B. For specific precautions and safety information, refer to the technical data sheets for the individual products.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

Before purchasing the products, we recommend **reading the warnings and risks** provided on the relevant product pages.

- [Go to the FLORA product page](#)
- [Go to the REFIX MATT product page](#)

PACKAGING:

- n. 1 5-litre container of FLORA
- n. 1 5-litre container of REFIX MATT
- n. 1 EASYCLEAN 700112 FIXED ALUMINIUM HANDLE 140 CM
- n. 1 ARTICULATED MOP FRAME WITH VELCRO SYSTEM | FILMOP, 40 cm
- n. 2 PULI-SCRUB MICROFIBRE MOPS WITH VELCRO BACKING | FILMOP
- n. 2 SMART-FUR MICROFIBRE MOPS WITH VELCRO BACKING | FILMOP

YIELD:

For detailed information on approximate coverage, the number of treatments possible and conditions of use, refer to the technical data sheets for the individual products included in the kit.

TECHNICAL DATA:

For detailed technical data on each cleaning product and accessory included in the kit, refer to the relevant technical data sheets for the individual products.

STORAGE:

For detailed storage information, refer to the technical data sheets for the individual products included in the kit.
