

ABRASIVE WOOD PAD

ABRASIVE SYNTHETIC FIBER PAD FOR MANUAL SANDING AND WOOD PREPARATION

User guide

DESCRIPTION:

ABRASIVE WOOD PAD is a synthetic fiber pad designed for manual sanding and the preparation of wood surfaces. It helps remove fibers and even out the material during different processing stages, offering a practical alternative to sandpaper. Flexible and durable, it adapts easily to edges and hard-to-reach areas, ensuring controlled sanding and a surface ready for finishing.

FIELDS OF APPLICATION:

Ideal for processing and finishing:

- wood window frames and joinery
- furniture and furnishings
- wooden structures and elements
- indoor and outdoor wood surfaces

Recommended for:

- removing wood fibers
- sanding and preparing the surface
- evening out wood before treatments

CHARACTERISTICS:

The ABRASIVE WOOD PAD is a synthetic fiber abrasive pad designed to support the processing, preparation, and finishing of wood surfaces. In particular:

- it removes wood fibers and surface imperfections;
- it makes manual sanding easier, ensuring a uniform and controlled result;
- it can replace sandpaper during preparation and finishing stages;
- it helps even out the surface, improving the performance of subsequent treatments;
- it is suitable for flat surfaces, shaped areas, edges, and corners;
- it is used dry during different stages of wood processing.

Made of flexible abrasive synthetic fibers, it is wear-resistant, does not rust, and maintains its performance over time.

INSTRUCTIONS FOR USE:

It is recommended to use the pad on dry surfaces during wood processing and finishing operations.

- Move the pad manually over the surface to be treated;
- Use it to remove fibers and even out the wood;
- Adjust the pressure according to the surface type and desired result;
- Continue working until a uniform surface is achieved;
- Apply before any treatments or finishes.

PRECAUTIONS:

Use on wood surfaces compatible with abrasive processing.

- always perform a preliminary test on a small area;
- do not use on delicate surfaces or those not suitable for sanding;
- avoid excessive pressure to prevent marks or uneven abrasion;
- check compatibility on treated or painted surfaces.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

PACKAGING:

- Single pad – pack of 1 piece

YIELD:

TECHNICAL DATA:

- Dimensions: 260 × 120 × 8 mm
- Color: green
- Action: abrasive
- Material: abrasive synthetic fibers resistant to wear
- Maintenance: washable with water
- Reuse: reusable multiple times

STORAGE:
