

SPONGICLEAN MARBEC

MICRO-ABRASIVE DESCALING SPONGE FOR HARD SURFACES

User guide

DESCRIPTION:

SPONGICLEAN MARBEC is a micro-abrasive scrubber sponge designed for descaling and restoring hard surfaces affected by limescale buildup, greasy films and carbon residues. Made of synthetic fibres with micro-abrasives resistant to abrasion and chemical agents, it quickly removes stubborn deposits and improves the appearance of non-polished surfaces.

Flexible and easy to handle, it reaches corners and difficult areas with precision. Moreover, it can be used together with Marbec cleaners to improve the effectiveness of descaling operations. After use, simply rinse the sponge with water so you can reuse it for further cleaning tasks.

FIELDS OF APPLICATION:

Descaling cleaning of non-polished hard surfaces contaminated by limescale buildup, greasy films and carbon residues.

Recommended for cleaning:

- ceramic
- porcelain stoneware
- terracotta
- stone
- steel
- brass
- iron
- chrome finishes
- sanitary fixtures
- faucets and taps
- shower glass

CHARACTERISTICS:

SPONGICLEAN from the EASYCLEAN line by Marbec is a micro-abrasive scrubber sponge designed for descaling and restoring hard surfaces affected by buildup and persistent deposits. In particular:

- quickly removes limescale buildup and stubborn deposits from hard surfaces;
- thanks to its composition of synthetic fibres with micro-abrasives, it effectively removes crusted deposits, greasy films and carbon residues;
- when used with Marbec cleaners, it removes limescale from chrome finishes, sanitary fixtures, faucets and shower glass;
- removes stubborn buildup from metal surfaces such as steel, brass and iron;
- helps restore the appearance of hard surfaces such as ceramic, porcelain stoneware, terracotta and stone;
- its flexible and easy-to-handle structure allows cleaning even in corners and hard-to-reach areas;
- made of synthetic fibres with micro-abrasives resistant to abrasion and chemical agents;
- can be rinsed with water and reused after use;
- suitable for cleaning non-polished hard surfaces.

INSTRUCTIONS FOR USE:

- Slightly dampen the sponge with water.
- Apply the Marbec cleaner best suited to the type of deposit to remove.
- Rub the surface until the deposit is completely removed.
- Rinse the surface with clean water.

PRECAUTIONS:

Non utilizzare la spugna su superfici lucide o particolarmente delicate. In particolare evitare l'impiego su:

- acciaio lucidato;
- pietre lucide;

- agglomerati cementizi o sintetici lucidi;
- superfici verniciate;
- superfici cromate;
- superfici plastiche lucide.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

PACKAGING:

- Single sponge – pack of 1 piece

YIELD:

TECHNICAL DATA:

- Dimensions: 95 x 25 x 25 mm
- Material: synthetic fibres with micro-abrasives
- Resistance: high resistance to abrasion and chemical agents
- Maintenance: easily washable with water and reusable
- Intended use: descaling cleaning and restoration of hard surfaces
- Compatible surfaces: non-polished hard surfaces

STORAGE:

MARBEC SRL
