

MELAMINE BUFFER PAD | Micro abrasion

MELAMINE BUFFER PAD WITH MICRO-ABRASION FOR CLEANING HARD AND MICROPOROUS SURFACES

User guide

DESCRIPTION:

The MELAMINE BUFFER PAD is a sponge made of composite melamine foam, designed for cleaning hard, microporous and resilient surfaces. Its controlled micro-abrasion action removes stubborn dirt and surface marks without damaging materials. Washable and reusable, it is used in combination with cleaning products to improve performance on porcelain stoneware, ceramic, terracotta, stone, concrete, treated wood, glass and crystal.

FIELDS OF APPLICATION:

Ideal for effective cleaning of:

- porcelain stoneware, ceramic and terracotta
- marble, stone and agglomerates
- polished and coated concrete
- treated wood
- resilient surfaces such as vinyl, WPC, SPC and linoleum
- glass and crystal

Suitable for:

- removing scuff marks and surface residues
- eliminating stubborn dirt from hard and microporous surfaces
- improving cleaning performance when used with detergents
- routine and intensive cleaning on high-traffic surfaces

CHARACTERISTICS:

MELAMINE BUFFER PAD is a technical sponge made of composite melamine foam, designed to support effective cleaning of hard and microporous surfaces. In particular:

- removes stubborn dirt and surface marks thanks to controlled micro-abrasion;
- enhances the effectiveness of detergents by facilitating dirt removal from microporosities;
- adapts to surface irregularities, ensuring uniform cleaning even in hard-to-reach areas;
- is suitable for routine and intensive cleaning on high-traffic surfaces;
- is typically used in combination with Marbec products depending on the material and type of dirt;
- can be used on surfaces such as porcelain stoneware, ceramic, terracotta, stone, concrete, treated wood, glass and crystal.

Made of composite melamine foam, it is washable, reusable and maintains its performance over time.

INSTRUCTIONS FOR USE:

Use the MELAMINE BUFFER PAD in combination with Marbec products, according to the cleaning needs and the type of surface:

- To remove scuff marks and stubborn dirt from porcelain stoneware, ceramic and stone, use with MICRONET®;
- For intensive cleaning of terracotta, marble, stone, concrete, rubber and linoleum, use with UNIPUL®;
- For periodic cleaning and removal of residues from porcelain stoneware, use with GRES LINDO® or GRES BRILL®;
- For cleaning treated wood surfaces, use with PULIBRILL®;
- For cleaning glass, crystal and glossy surfaces, use with VETRONET or SANI-KAL FORTE;
- To remove residues and dullness from shower glass panels, use with RE-CRYSTALBOX;
- For cleaning stainless steel, aluminium and metal surfaces, use with CREAM INOX® or METALUX;
- For cleaning kitchen surfaces such as hoods, cooktops and furniture, use with PULI ECO.

Apply the pad using the grey-white side in contact with the surface, applying even manual pressure until the dirt is removed. The opposite side is designed to ensure better grip when used with holders. Do not apply excessive pressure, especially on delicate surfaces.

PRECAUTIONS:

None.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

PACKAGING:

- Large melamine buffer pad (250 x 115 x 30 mm) – pack of 1 piece
- Small melamine buffer pad (117 x 87 x 30 mm) – pack of 1 piece

YIELD:

Estimated coverage: 20–50 m² depending on surface roughness.

TECHNICAL DATA:

- Large size: 250 x 115 x 30 mm
- Small size: 117 x 87 x 30 mm
- Color: grey-white
- Material: composite melamine foam
- Action: controlled micro-abrasion
- Washable with water and reusable
