

SMART-FUR MICROFIBRE MOP WITH VELCRO BACKING | FILMOP

MICROFIBER MOP WITH VELCRO BACKING FOR FLOOR CLEANING

User guide

DESCRIPTION:

Professional microfiber mop with Velcro backing, designed for dry dusting, floor cleaning, and floor maintenance. Delivers excellent dirt collection, high absorbency, and fast surface drying.

FIELDS OF APPLICATION:

Ideal for:

- dry dusting floors
- spray cleaning surfaces
- professional floor cleaning with Velcro systems
- even application of liquid floor finishes and maintenance products
- routine cleaning and maintenance of floors in residential, commercial, and professional environments

CHARACTERISTICS:

The SMART-FUR MOP WITH VELCRO BACKING is a professional microfiber mop designed to improve the efficiency of floor cleaning and maintenance. In particular:

- effectively collects and retains dust and dirt thanks to its microfiber construction;
- reaches microscopic surface pores without scratching the material;
- provides excellent absorbency, promoting faster drying with fewer streaks;
- is ideal for dry dusting, spray cleaning, and the even application of liquid floor finishes and maintenance products;
- attaches and removes quickly thanks to the practical Velcro backing;
- offers a long service life and is machine washable for repeated use.

Made from high-quality microfiber, the mop delivers outstanding cleaning performance even with frequent use and is compatible with cleaning frames equipped with a Velcro system.

INSTRUCTIONS FOR USE:

- Attach the mop to a compatible cleaning frame with a Velcro system.
- Use the mop dry for dusting or dampened with a cleaning solution for floor cleaning, spray cleaning, and the application of liquid floor finishes and maintenance products.
- After use, remove the mop from the frame and machine wash it to eliminate trapped dirt and restore its cleaning performance.

PRECAUTIONS:

- Use only with cleaning frames equipped with a Velcro system.
- Machine wash the mop after each use to maintain its cleaning performance.
- Always check compatibility before use on particularly delicate surfaces.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.
