

ROBOPARQUET®

CONCENTRATED CLEANER FOR ROBOT MOPS AND FLOOR CLEANING VACUUMS
SPECIFIC FOR WOOD, PARQUET AND WPC FLOORS

User guide

DESCRIPTION:

ROBOPARQUET® is a concentrated cleaning solution based on water, glycols, alcohols, anionic and non-ionic surfactants, and fragrance, specifically designed for the routine cleaning of wood, parquet, and WPC floors with robot floor cleaners and electric mops. The low-foaming and fast-evaporating formula effectively cleans surfaces without leaving harmful residues or affecting wood finishes.

FIELDS OF APPLICATION:

Suitable for the routine cleaning of:

- wooden floors
- parquet
- WPC surfaces

Application with:

- robot floor cleaners
- electric mops

CHARACTERISTICS:

ROBOPARQUET® is a super-concentrated cleaner for the routine maintenance of wooden floors, offering the following performance:

- high cleaning effectiveness on everyday dirt, helping to prevent streaks and surface haze;
- cleaning action without leaving harmful residues on wood or finishes;
- effective even at very low concentrations, with no foam formation and fast evaporation, making it suitable for automatic cleaning systems;
- suitable for varnished, oiled and/or waxed wooden floors;
- neutral pH formula, designed to help reduce the risk of allergic reactions and suitable for frequent cleaning;
- specific formula that supports wood care: regular use (e.g. weekly) helps reduce the tendency of the material to shrink and develop micro-cracks, especially in environments with underfloor heating;
- compatible with all types of robot floor cleaners without affecting their performance.

INSTRUCTIONS FOR USE:

Dilute 15 ml of ROBOPARQUET® in 500 ml of water using the dosing cap provided with the bottle.

Instructions in case of very hard water

If the water is very hard, the use of distilled water is recommended to avoid:

- clogging of the robot tank
- limescale residues on the floor surface
- formation of haze and streaks

Alternatively, carry out periodic rinsing of the tank (e.g. once a week).

PRECAUTIONS:

Do not exceed the indicated mixing ratio to avoid the formation of halos and unwanted streaks.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

WARNINGS: WARNING

Hazard statements: It causes severe eye irritation.

Precautionary statements: Keep out of reach of children. – Protect your eyes/face. – If eye irritation persists, seek medical attention.

Ingredients compliant with Regulation (EC) No. 648/2004:

Non-ionic surfactants less than 5%, Anionic surfactants less than 5%, Perfume, Preservatives.

UFI: CPC0-S0D2-Q00V-MK2F

Rev1-Ver10122024

PACKAGING:

- 1 L PE bottle – boxes of 6 pieces

YIELD:

With 1 litre of product you can make more than 30 litres of cleaning solution, useful for washing approximately 900 m² of surface.

TECHNICAL DATA:

- Physical state: clear liquid.
- Color: pink.
- Specific weight (g/cm³): 1
- pH (20°C) of the pure product: 7
- Flash point (ASTM): non-flammable.
- Fragrance: Floral

STORAGE:

Store the product tightly closed at temperatures between 0°C and +30°C. The product stored in this way has a shelf life of 2 years.
