

METAL-STRIP

QUICK WAX REMOVER CLEANER FOR STONE MATERIALS

User guide

DESCRIPTION:

Alkaline-solvent solution made of water, solvents, amines, low foaming surfactants, sequestrants. It does not contain caustic soda.

FIELDS OF APPLICATION:

For normal or strong wax-stripping washing on all stone materials (cotto, stone, glazed ceramics, klinker, porcelain tiles, cement, grit, etc.).

CHARACTERISTICS:

METAL-STRIP is a detergent for the cleaning of all stone materials (terracotta, stone, glazed ceramics, klinker, porcelain tiles, cement, grit, etc.).

METAL-STRIP:

- is a strong detergent to quickly remove old layers of metallic wax and various polymers;
- has an effective exhausting action even at low concentrations;
- no acid neutralisation required;
- has low foaming properties;
- does not release unpleasant odors during use and in environments.

Do not use on wood, linoleum, rubber, painted surfaces, aluminum.

INSTRUCTIONS FOR USE:

INSTRUCTIONS FOR USE:

It can be used pure or diluted in water depending on the type of dirt, the amount of residues to be removed and the cleaning technique adopted.

Dosages:

- Pure: on substantial accumulations of waxes and polymers;
- Diluted a part of METAL-STRIP in 4-8 equal parts of water: for washes where a normal degreasing action is necessary;
- Diluted a part of METAL-STRIP in 10-15 equal parts of water: for periodic washing with scrubbing machines.

How to use the product:

- Spread the product wetting the surface and let it act 5/10 minutes;
- Proceed to small areas (10-15 m²). Rub the surface with pads or discs made of plastic fibers;
- Remove the residues of the deceramento;
- Finally rinse with clean water;
- Repeat the application if necessary.

PRECAUTIONS:

- do not use on wood, linoleum, rubber and PVC;
- protect painted and anodized aluminium surfaces from contact with METAL-STRIP.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

WARNING: DANGER

Hazard statements: Causes severe skin burns and eye damage. – May cause respiratory irritation.

Precautionary statements: Do not breathe dust / fume / gas / mist / vapours / spray. – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. – IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. – Wear protective gloves/ protective clothing / eye protection / face protection. – IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

Contains: Sodium metasilicate pentahydrate, ethanolamine, non-ionic surfactants <5%, anionic surfactants <5%.

UFI: K1D0-T04N-X00U-8XDQ

Rev8-Ver12022025

PACKAGING:

- 1 lt conf. Can – box 6 pieces;
- 5 lt conf. Watertight – box 4 pieces.

YIELD:

- for energetic washings 1 lt / 4-8 m²;
- for normal washings 1 lt / 10-15 m².

TECHNICAL DATA:

- Physical state: clear colourless liquid
- Specific gravity (g/cm³): 1,062
- pH (20°C) of the pure product: 13-14
- Flame point (ASTM): non-flammable
- Solubility in water: total

STORAGE:

Keep the product tightly closed and at a temperature between 5 and 30 °C in an aerated environment, away from heat sources and not exposed to sunlight for a long time. The stored product has a useful life of 5 years.
