

SMACCHIO POLVERE

STAIN REMOVER FOR REMOVING ORGANIC COLOURED STAINS

User guide

DESCRIPTION:

Hydro-dispersible powder based on oxidizing salts, surfactants, enzymes and micro-porous mineral thickener.

FIELDS OF APPLICATION:

For removing coloured stains of organic origin from all stone materials such as terracotta and brick, natural stone, cement products, synthetic agglomerates, porcelain stoneware, klinker, etc.

CHARACTERISTICS:

SMACCHIO POLVERE is a stain remover specifically formulated for removing coloured stains of organic origin on stone materials.

SMACCHIO POWDER:

- removes stains of coffee, wine, fruit juice, food residues in general, blood, urine, tannin that have penetrated into stone materials;
- is non-toxic, non-flammable and harmless to the environment and is not aggressive towards materials;
- · leaves no residue on the material.

On shiny limestone materials such as marble and cement agglomerates the application of SMACCHIO POLVERE may dull the surface.

INSTRUCTIONS FOR USE:

Instructions for use:

SMACCHIO POLVERE is a product to be dispersed in water before use and mixed to form a creamy paste.

- Apply the product with a spatula or plastic trowel, taking care to leave a 2 3 mm layer of SMACCHIO POLVERE on the stain to be removed. If necessary, the duration of the extraction action can be increased by covering the pack with a sheet of plastic material (e.g. Domopack);
- Allow the pack to dry before dry removal with a nylon or sorghum brush;
- Finally, rinse with plenty of water;
- · Check that the stain has been removed;
- · Repeat application if necessary.

Protect metal surfaces and do not use metal containers.

PRECAUTIONS:

- · protect metal surfaces;
- · always test before use;
- do not apply on excessively hot surfaces.

NOTES:

Our indications are based on current research knowledge and are intended to give the best guidance to the buyer-user. However, such indications require examination and testing prior to the areas of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and field of use. MARBEC SrI accepts no liability for the incorrect use of its products. Rev5-Ver170222

WARNINGS:

WARNINGS: DANGER

Hazard statements: Causes severe skin burns and eye damage.

Precautionary statements: Do not breathe dust/fume/gas/mist/vapours/ spray. – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. – IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. – Wear protective gloves/protective clothing/eye protection/face protection. – IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

Contains: Sodium methasilicate pentahydrate, Sulphuric acid, mono-C12-14-alkyl esters, sodium salts, Sodium percarbonate.

Ingredients according to Regulation (EC) No. 648/2004:

Oxygen-based bleaching agents 15-30%, Phostates 5-15%, Enzymes, Anionic surfactants <5%.

UFI: D050-90J3-U008-1XME

Rev5-Ver170222

PACKAGING:

- 250gr Plastic tin box 6 pcs;
- 1 Kg Plastic bucket box 4 pcs.

YIELD:

 On average, 1 kg of prepared mixture (corresponding to approx. 300 g of powder) covers approx. 1 m2 of surface area.

TECHNICAL DATA:

Physical state: white powder

Specific weight (apparent): = 0.28 g/lt

pH: 12 (sol. 10%)

Flash point (ASTM): not flammable Solubility in water: partially soluble

STORAGE:

Store the product tightly closed and at a temperature between 5 and 30°C in a ventilated area, away from heat sources and not exposed to sunlight for long periods. If stored at low temperatures (<10°C) the product may become dense, but without impairing use or performance. The product stored in this way has a service life of 5 years.
