

BEAUTY FLOOR

GLOSSY MAINTENANCE WAX FOR PAINTED WOOD

User guide

DESCRIPTION:

O/W emulsion of waxes, resins, and non-ionic surfactants.

FIELDS OF APPLICATION:

Maintainer of all glossy painted wooden surfaces.

CHARACTERISTICS:

BEAUTY FLOOR is a glossy protective and maintenance wax specific for glossy painted wooden floors and surfaces. For internal use.

BEAUTY FLOOR:

- is a water-based product, not dangerous and easy to use;
- creates a waxy microfilm that protects glossy painted wooden surfaces from wear of detergents and trampling;
- retains the protective and aesthetic characteristics of the initial finish over time;
- makes surfaces easier to clean and maintain;
- is a self-polishing wax. Can be dry polished to enhance and maintain luster;
- leaves a pleasant smell in the environment.

INSTRUCTIONS FOR USE:

- Shake before using;
- Apply the product in small quantities on a soft cloth and distribute a thin and uniform layer on the surface;
- Do not step on the product while drying.

It usually dries in 1-2 hours.

BEAUTY FLOOR is self-polishing. If you want to increase the shine after drying, rub the treated surface with a white buffer.

Frequency of use:

- every 2-3 months: on surfaces heavily trampled on and subject to heavy wear (e.g. shops, public places, bars, restaurants, kitchens, entrances, bathrooms, etc.);
- every 6-12 months: on surfaces that are rarely trampled (e.g. sleeping areas, halls, etc.).

PRECAUTIONS:

- avoid excesses of product so as not to have halos or opacities on the painted surfaces.

NOTES:

Our indications are based on current research knowledge and are intended to give the best indications to the buyer-user. However, these indications require preliminary examinations and tests for the fields of use, the types of materials present, and the various application conditions. The user decides independently on the suitability and field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. Rev4-Ver150322

WARNINGS:

WARNINGS: NONE

Hazard statements: Safety data sheet available on request.

Rev4-Ver150322

PACKAGING:

- 1 lt pack. Can – box of 6 pieces;
- 5 lt pack. Can – box of 4 pieces.

YIELD:

- Depending on the surface finish of the material 1 liter / 50 – 80 m².

TECHNICAL DATA:

- Physical state: white liquid
- Specific weight (g/cm³): 1
- pH: 8
- Flashpoint (ASTM): non-flammable
- Solubility in water: miscible
- Drying time: 15 – 30 minutes
- Consolidation time: 2 hours

STORAGE:

Keep the product tightly closed at temperatures between 0°C and +30°C and not exposed to sunlight for a long time.

STORAGE PERIOD: The product stored in this way has a useful life of 5 years.
