

RED BUFFER PAD MARBEC |

Slightly Abrasive

RED PAD FOR DEEP CLEANING

User guide

DESCRIPTION:

FIELDS OF APPLICATION:

The **RED PAD** from the EASYCLEAN line by Marbec is a rectangular sponge made of plastic fibers and slightly abrasive, designed for the deep cleaning of terracotta, stone, wood, and cement-based surfaces. It is a professional accessory that effectively removes stubborn dirt and old wax residues without scratching or damaging the treated materials. Thanks to its controlled abrasiveness, the **RED PAD** is the perfect tool for the proper use of Marbec products in surface maintenance and treatment operations.

RED PAD:

- Size: 250 x 115 x 25 mm.
- Made of synthetic fibers resistant to chemicals.
- Easily washable with water and reusable.
- Ideal for surfaces such as terracotta, natural stone, marble, cement, wood.
- Compatible with **MANUAL PAD HOLDER** and **FLEXIBLE BUFFER PAD HOLDER** with **HANDLE**.

CHARACTERISTICS:

It is usually used together with Marbec detergents depending on cleaning needs:

- **UNIPUL** for extraordinary maintenance cleaning of materials such as Terracotta, Stone, and Cement Agglomerates treated with wax. This cleaning removes difficult-to-eliminate surface dirt deposited in the pores of the material and on old layers of maintenance wax accumulated over time. This type of cleaning does not remove the base treatment and prepares the surface for a new finish.
- **SGRISER** for strong wax-removing cleaning of delicate stone materials such as Stone, Marble, and Cement Agglomerates (cement tiles, terrazzo, marble tiles). The **RED PAD** cleans and strips the surface without scratching delicate materials.
- **DELICACID** for descaling and post-installation cleaning of delicate stone surfaces resistant to acidic substances such as Stone, Marble, and Cement Agglomerates (cement tiles, terrazzo, marble tiles) that are not polished.
- **STRIP RESIL** for strong wax-removing cleaning of resilient materials such as linoleum, PVC, rubber, SPC, and WPC.

The **RED PAD** can also be used dry to:

- Remove rubber shoe marks on oil-impregnated wooden floors and on stone surfaces treated with wax.

INSTRUCTIONS FOR USE:

PRECAUTIONS:

NOTES:

WARNINGS:

PACKAGING:

YIELD:

- Approximately, depending on the roughness of the surface, 30 to 70 m².

TECHNICAL DATA:

- Dimensions: 250 x 115 x 25 mm
- Color: Red
- Low abrasiveness
- Made of synthetic fibers resistant to chemicals
- Easily washable with water and reusable
