

PULI MUFFE

SANITIZING WHITENING DETERGENT AGAINST ORGANIC DEPOSITS

User guide

DESCRIPTION:

Chloro-active alkaline whitening solution.

FIELDS OF APPLICATION:

For cleaning and removing mold from walls and surfaces in stone, cotto, plaster, cement coatings, shower cubicles.

CHARACTERISTICS:

PULI MUFFE is a whitening cleaner for cleaning surfaces.

PULI MUFFE:

- sanitizes surfaces and helps remove blackening and mold from materials;
- is ideal for periodic cleaning of bathrooms, shower cubicles, ceramic tiles;
- can also be applied on plaster and raw wood.

INSTRUCTIONS FOR USE:

- Product ready to use;
- Spray PULI MUFFE directly on the surface to be cleaned;
- Leave for a few minutes and brush the surface with a kitchen sponge, or a white buffer or microfiber cloth;
- In the case of large and thick mold deposits let the product act for 30-60 minutes and if necessary use a nylon brush, so as to remove the organic scale in depth;
- Finally, rinse with clean water.

On colored paints or plasters, before using PULI MUFFE, test a small area to exclude any color changes. The product can opacify the methacrylate: pay attention near the bathtubs made with this material.

PRECAUTIONS:

- do not use on wood (especially if not painted), on wax treated absorbent materials (e.g. terracotta), glossy marble;
- protect metal and fabric surfaces from contact with PULI MUFFE;
- the product can opacify the methacrylate: pay attention near the bathtubs made of this material;
- on paints or coloured plasters, before using PULI MUFFE carry out a test on a small area to exclude any color changes.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. Rev6-Ver070222

PACKAGING:

- 750 MI Spray PE – box 6 pcs;
- 5 lt tank PE – boxes 4 pcs.

YIELD:

- 1 lt / 10 – 15 m².

TECHNICAL DATA:

- Physical state: straw-yellow liquid
- Specific gravity (g/cm3): 1,05
- pH (20°C) of the pure product: 12
- Flame point (ASTM): non-flammable
- Solubility in water: soluble in water.

STORAGE:

Keep the product tightly closed at temperatures between 0 °C and +30 °C and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.
