

PULI FORNO®

STRONG DEGREASER AND DESCALER FOR KITCHEN OVENS AND BARBECUES

User guide

DESCRIPTION:

Strong alkaline solution in gel form.

FIELDS OF APPLICATION:

For the extraordinary cleaning of ovens, barbecues, pots and pans heavily encrusted with greasy substances and carbon black.

CHARACTERISTICS:

PULI FORNO is a strong descaling alkaline degreasing detergent in gel for the extraordinary cleaning of kitchen ovens, glass, barbecues, pans and oven dishes that are heavily encrusted.

PULI FORNO:

- cleans, degreases and descales the surfaces from greasy substances, black crusts of carbon deposits and carbon black, cleaning them in depth through mechanical action;
- does not contain solvents, is odorless and biodegradable;
- is a gel product and can be easily applied on vertical surfaces;
- has a long-lasting degreasing power and can be applied several times without damaging the surfaces, up to the complete removal of encrustations;
- is easy to remove and leaves no unpleasant odors even after removing the product.

INSTRUCTIONS FOR USE:

Wear gloves and avoid contact with skin and eyes. The product is used pure.

Extraordinary cleaning on normally encrusted surfaces:

- Spread the product on the surface with paper or plastic fiber brush and leave it to act for 30-60 minutes;
- After the contact time, rub according to the incrustation to be removed with an oven buffer and a rough kitchen sponge;
- Next, remove the product from the surface with absorbent paper;
- Finally, rinse the surface with plenty of water;
- Repeat the application if necessary.

Extraordinary cleaning on surfaces heavily encrusted with black crusts:

- Spread the product on the surface with paper or plastic fiber brush and leave it to act for 6-12 hours;
- After the contact time, to remove the white drying of the product, apply the descaling product SANI-KAL BIO and rub tenaciously according to the incrustation with an oven buffer and a rough kitchen sponge;
- Next, remove the product from the surface with absorbent paper;
- Finally, rinse the surface with plenty of water;
- Repeat the application if necessary.

PRECAUTIONS:

- use gloves and avoid contact with skin and eyes;
- do not apply PULI FORNO on microwave ovens, not painted enamelled aluminum oven.

NOTES:

Our recommendations are based on current research knowledge and are intended to give the best information to the buyer-user. However, these indications require preliminary examinations and tests to the fields of use, to the types of materials present and to the various conditions of application. The user decides independently on suitability and on the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

Contains: Sodium hydroxide

Ingredients compliant with Regulation (EC) No. 648/2004:
Sodium hydroxide, non-ionic surfactants <5%

UFI: 3Q60-E0C1-Y005-8S8Q

Rev6-Ver280122

PACKAGING:

- 1 Kg PE jar – box 6 pcs.

YIELD:

- Depending on the dirt.

TECHNICAL DATA:

- Physical state: gelatinous liquid
- Specific weight (g / cm³): 1.09
- pH: 14
- Flash point (ASTM): not flammable
- Solubility in water: partially soluble in water.

STORAGE:

Keep the product tightly closed out of reach of children, in a well-ventilated and cool environment and not exposed to sunlight for a long time.

STORAGE PERIOD: The product stored in this way has a useful life of 5 years.
