

CREAM INOX

CONCENTRATED CREAM SPECIFIC FOR STAINLESS STEEL AND ALUMINIUM

User guide

DESCRIPTION:

Cream based on surfactants, amines and inert powder. It does not contain acids.

FIELDS OF APPLICATION:

Specific cream for extraordinary cleaning, degreasing and polishing of stainless steel and aluminum surfaces opacified and damaged by use.

CHARACTERISTICS:

CREAM INOX is a specific cream for cleaning stainless steel and aluminum surfaces in your house (appliances, steel hobs and kitchens, etc.).

CREAM INOX:

- cleans, degreases and polishes surfaces opacified by use, restoring the material to its original appearance;
- does not contain acids or alkaline substances;
- does not leave halos after use;
- does not give off harmful fumes.

INSTRUCTIONS FOR USE:

- Shake before using;
- Pour a small quantity of CREAM INOX;
- Rub the surface to be polished with a white cloth or buffer until a dark patina is formed;
- Rinse immediately with water;
- Repeat if necessary.

PRECAUTIONS:

- None.

NOTES:

Our indications are based on current research knowledge and are intended to give the best indications to the buyer-user. However, these indications require preliminary examinations and tests for the fields of use, the types of materials present and the various application conditions. The user decides independently on the suitability and field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. Rev6-Ver160222

WARNINGS:

WARNINGS: WARNING
