

SPEED90

NAUTICAL RUST STAIN REMOVER AND DESCALER

User guide

DESCRIPTION:

Solution based on phosphoric acid, inorganic salts, and surfactants.

FIELDS OF APPLICATION:

For descaling cleaning of gelcoat, stainless steel, and chrome-plated surfaces, and for removing rust stains.

CHARACTERISTICS:

SPEED90 is a stain remover specifically formulated for descaling and antioxidant cleaning of gelcoat, stainless steel, and chrome surfaces.

SPEED90:

- removes rust, limescale, and oxidation films that form on boat surfaces due to exposure to the marine environment;
- does not release fumes;
- is non-flammable.

INSTRUCTIONS FOR USE:

- Apply SPEED90 using a brush and wait 90 seconds;
- Scrub the surface with a nylon brush or blue pad;
- Repeat the operation after 90 seconds;
- Do not exceed 10 minutes of contact between the product and the surface;
- After the treatment, rinse thoroughly with water.

PRECAUTIONS:

- Caution! Avoid contact of SPEED90 with glass, aluminum, wood, antifouling coatings, and galvanized surfaces.
- DO NOT SPRAY or MIST the product.
- Wear protective gloves and goggles when handling the product. Do not mix with ammonia or sodium hypochlorite, as this may release irritating and corrosive gas.

NOTES:

Our recommendations are based on current research knowledge and are intended to provide the best guidance to the purchaser-user. However, such recommendations require preliminary tests and evaluations in relation to the specific application areas, types of materials involved, and various usage conditions. The user is solely responsible for determining the suitability and field of application. MARBEC Srl accepts no liability for improper use of its products.

PACKAGING:

- 1 L PE Bottle – box of 6 pieces;
- 5 L PE Canister – box of 4 pieces.

YIELD:

- Depending on the type of dirt to be removed.

TECHNICAL DATA:

- Physical state: colorless liquid
- Specific gravity (20°C): 1.045
- pH (20°C): 3
- Flash point (ASTM): >90°C
- Solubility in water: soluble in water

STORAGE:

Store the product tightly closed at a temperature between 5°C and 30°C in a well-ventilated area, away from heat sources and not exposed to direct sunlight for extended periods. If stored at low temperatures (<10°C), the product may become thicker, but this does not affect its usability or performance. When properly stored, the product has a shelf life of 5 years.
