

VELA BIANCA

NAUTICAL CLEANER FOR SAILS

User guide

DESCRIPTION:

Solution of non-ionic surfactants with rapid biodegradability and dirt disruptors. It does not contain caustic soda, ammonia, fragrances, dyes and solvents.

FIELDS OF APPLICATION:

For cleaning white and colored sails made of nylon, Kevlar, acrylics, dacron and other sailing materials. Also ideal for cleaning awnings, sail covers, etc.

CHARACTERISTICS:

VELA BIANCA is a specific cleaner for cleaning boat sails made of nylon, kevlar, acrylics, dacron and other sailing materials.

VELA BIANCA:

- It is an ideal cleaner for cleaning sails made of nylon, Kevlar, acrylics, dacron and other sailing materials:
- it can also be used to clean awnings and sail covers;
- it quickly eliminates mold, smog, salt, excrement, etc. from the sails of boats, restoring their original color and brilliance;
- it does not weaken the fibers and does not ruin the colors of the sails;
- it is an eco-friendly and is readily biodegradable;
- it has low foaming.

INSTRUCTIONS FOR USE:

- Spray VELA BIANCA on the surface to be treated and wait a few minutes;
- Scrub the surface with a sponge or nylon brush until dirt is completely removed;
- Rinse with water. Leave on for a few minutes and then rinse with water.

PRECAUTIONS:

None.

NOTES:

Our indications are based on current research knowledge and are intended to give the best indications to the buyer-user. However, these indications require preliminary examinations and tests for the fields of use, the types of materials present and the various conditions of application. The user decides independently on suitability and the area of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. Rev6-Ver180222

WARNINGS:

WARNINGS: CAUTION

Hazard statements: Causes severe eye irritation.

Precautionary statements: Protect your eyes/face. – If eye irritation persists, seek medical attention.

Ingredients compliant with Regulation (EC) No. 648/2004: Phosphates 5%< C <15%, anionic surfactants<5%

PACKAGING:

- 750 ml PE Spray Bottle 6 pcs box;
- 5 It PE tank boxes 4pcs.

YIELD:

Depending on the dirt.

TECHNICAL DATA:

- · Physical state: colorless liquid
- Specific Gravity (g/cm3): 1.095
- Pure pH (20°C): 11
- Flame point (ASTM): > 90 °C
- Water Solubility: Water Soluble
- Odor: fragrance-free

STORAGE:

Store the product tightly closed and at a temperature between 5 and 30°C in a ventilated environment, away from heat sources and not exposed to sunlight for a long time. If stored at low temperatures (<10°C) the product may become thick, but without affecting use or performance. The product stored in this way has a useful life of 5 years.
