

BIOCARE OPACO

MAINTENANCE WAX FOR OILED PARQUET

User guide

DESCRIPTION:

O/A emulsion of waxes, resins, non-ionic surfactants.

FIELDS OF APPLICATION:

Matt ordinary maintenance wax for all internal wood surfaces impregnated with oil with a natural effect finish.

CHARACTERISTICS:

BIOCARE OPACO is a maintenance and protection wax for internal use of floors, walls, windows, furniture, and wooden surfaces impregnated with oil with a natural matte effect. For internal use.

BIOCARE OPACO:

- is a water-based product, not dangerous and easy to use;
- preserves and protects over time the protective and aesthetic characteristics of the initial finish;
- makes the surfaces easier to clean and maintain;
- renews the surface protection of the matte treatment;
- does not form films or glossy films;
- leaves a pleasant smell in the environment.

INSTRUCTIONS FOR USE:

Apply on clean and dry surfaces.

- Shake very well before use;
- Apply the product in small quantities on a soft cloth and distribute a thin and uniform layer on the surface;
- Do not step on the product during drying.

It generally dries in 1-2 hours.

Periodicity of use:

- every 4-6 months: on surfaces intensely trampled and subject to heavy wear (e.g. shops, public places, bars, restaurants, kitchens, entrances, bathrooms, etc.);
- every 12 months: on poorly trampled surfaces (e.g. sleeping areas, salt, etc.).

PRECAUTIONS:

- do not use BIOCARE OPACO on painted wood;
- avoid the use of highly alcoholic detergents when cleaning surfaces treated with BIOCARE OPACO.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present, and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

WARNING: NONE

Hazard statements: Safety data sheet available on request.

Rev3-Ver170322

PACKAGING:

- 1 lt Plastic bottle – box 6 pcs;
- 5 lt Plastic jerrycan – box 4 pcs.

YIELD:

- Depending on the surface finish of the material 1 lt / 30 – 40 sqm.

TECHNICAL DATA:

- Physical state: pink liquid
- Specific gravity (g/cm3): 1
- pH: 8
- Flame point (ASTM): non-flammable
- Solubility in water: miscible in water
- Drying time: 30 – 60 minutes
- Consolidation time: 24 hours

STORAGE:

Keep the product tightly closed at temperatures between 0 °C and +30 °C and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.
