

PULIBRILL®

DETERGENT FOR WOOD AND PARQUET

User guide

DESCRIPTION:

Concentrated detergent solution based on non-ionic and cationic surfactants, coconut soap, and vegetable aromas.

FIELDS OF APPLICATION:

For ordinary and extraordinary non-aggressive cleaning of all wooden surfaces, painted or treated with oil and/or wax.

CHARACTERISTICS:

PULIBRILL is a concentrated neutral pH brightener detergent specific for cleaning wooden and parquet surfaces.

PULIBRILL:

- can be used for ordinary and extraordinary non-aggressive cleaning of all wooden surfaces, painted or treated with oil and/or wax;
- cleans the wooden surface;
- does not attack the wood essence and the finish of the material;
- maintains the brilliance of the initial treatment over time.

INSTRUCTIONS FOR USE:

The concentration of use depends on the type of dirt to be removed.

Dosages:

- Dilute 100-200 cc of PULIBRILL in 1lt of water: to perform an extraordinary cleaning to remove consistent dirt.
 - Spread the product on the surface with a rag and leave to act for a few minutes;
 - Rub the surface with white buffer;
 - Finally, rinse everything with clean water.
- Dilute 10-15 cc of PULIBRILL in 1lt of water: for ordinary surface cleaning.
 - It is applied like a normal detergent with a microfibre cloth. In this dilution, it is also possible to use scrubbing machines.

PRECAUTIONS:

- None.

NOTES:

Our recommendations are based on current research knowledge and are intended to give the best information to the buyer-user. However, these indications require preliminary examinations and tests to the fields of use, to the types of materials present and to the various conditions of application. The user decides independently on suitability and on the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. Rev9-Ver101023

PACKAGING:

- 1 lt Plastic bottle box 6 pcs;
- 5 lt Plastic tank box 4 pcs.

YIELD:

- According to the concentrations of use.

TECHNICAL DATA:

- Physical state: dense green liquid
- Specific weight (g / cm³): 1
- pH (20 ° C): 8
- Flashpoint (ASTM): not flammable
- Solubility in water: soluble in water.

STORAGE:

Keep the product tightly closed at temperatures between 0 ° C and + 30 ° C and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.
