

RE-CRYSTALBOX 250GR

POLISHING CREAM FOR GLASS AND SHOWER BOXES

User guide

DESCRIPTION:

Aqueous microdispersion based on biodegradable anionic surfactants and inert powders (cerium and aluminum oxides). It does not contain acids or solvents.

FIELDS OF APPLICATION:

Specific cream for extraordinary cleaning, degreasing, and polishing of crystal and polished glass surfaces.

CHARACTERISTICS:

RE-CRYSTALBOX liquid cream for the extraordinary descaling and stain remover cleaning of the crystals of the shower boxes, glass, and shiny mirrors.

RE-CRYSTALBOX:

- cleans, degreases and re-polish opaque glass surfaces from the use or incrustations of limestone, adhesive residues, oxidation patinas, etc. ;
- removes halos and traces of hard-to-remove limestone;
- is safe to use and contains neither acids nor solvents;
- works by mechanical action and should be applied by rubbing with energy with MELAMINE BUFFER PAD;
- does not leave halos after use and does not scratch;
- is suitable for use with felt discs and electric drills or other rotary polishing equipment.

INSTRUCTIONS FOR USE:

Apply on clean and deeply descaled surfaces. We recommend the preventive use of SANI-KAL FORTE and WHITE BUFFER to perform an extraordinary descaling cleaning.

- Shake the package well before use;
- Pour the product on the MELAMINE BUFFER PAD and wet the surface evenly;
- Leave the product to act for 2-3 minutes without letting it dry;
- Moisten the MELAMINE BUFFER PAD sponge with water and rub the applied product repeatedly on the surface making circular movements until the limescale deposits have been removed;
- Rinse the surface with water or VETRONET detergent and dry with a microfibre cloth;
- Repeat if necessary.

PRECAUTIONS:

- do not apply on materials with low surface hardness such as plastics, laminates, painted or lacquered surfaces that could be nicked or abraded;
- do not apply on satin and opaque glass.

NOTES:

Our recommendations are based on current research knowledge and are intended to give the best information to the buyer-user. However, these indications require preliminary examinations and tests to the fields of use, to the types of materials present and to the various conditions of application. The user decides independently on suitability and on the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. Rev1-Ver070922

WARNINGS:

WARNINGS:

Hazard statements: safety data sheet available on request.

Contains: Mixture of: 5-chloro-2-methyl-2H-isothiazol-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3: 1). It can cause an allergic reaction.

Ingredients compliant with Regulation (EC) No. 648/2004:

Anionic surfactants <5%

UFI: 3V90-40VR-900G-RDU3

Rev1-Ver070922

PACKAGING:

- 250 gr PE bottle – 6 pcs box.

YIELD:

- With a 250gr bottle, you can clean about 5/10 square meters of the surface according to the incrustations to be removed.

TECHNICAL DATA:

- Physical state: brown liquid cream
- Specific weight (g / cm³): 1.05
- pH: 9
- Flashpoint (ASTM): not flammable
- Solubility in water: dispersible

STORAGE:

Keep the product tightly closed at temperatures between 0 ° C and + 30 ° C and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.
