

# DISINKROSTO WC

DESCALING GEL CLEANER FOR TOILETS AND RECESSED CISTERNS

## User guide

### DESCRIPTION:

Hydrochloric acid gel cleaner, corrosion inhibitors, anti-fumigant surfactants.

### FIELDS OF APPLICATION:

Hydrochloric acid gel cleaner, corrosion inhibitors, anti-fumigant surfactants.

### CHARACTERISTICS:

**DISINKROSTO WC** is a strong acid detergent for descaling the surfaces of toilets and water cisterns.

#### **DISINKROSTO WC:**

- is a gel product that adheres well to vertical surfaces, facilitating the descaling action;
- removes even the most stubborn deposits of limestone, oxides (e.g. rust) and organic residues;
- can be distributed even in the most hidden points thanks to the special internal sprayer.

### INSTRUCTIONS FOR USE:

Product ready to use.

#### WC:

- Apply the product around the cup and on the water flow walls;
- Leave to act for about 15-20 minutes and then rub with SPONGICLEAN MARBEC to remove the most stubborn incrustations;
- Then slide the drain water to rinse;
- Repeat if necessary until the halos are removed.

#### Cisterns for waste water:

- Apply the product on an empty box, free of water;
- Wet with the product all the inner surfaces of the cistern and wait about 15 minutes without filling with water;
- Open the water drain tap;
- For larger scale, apply DISINKROSTO WC again following the procedure described above.

### PRECAUTIONS:

- not to be applied to taps, fittings, stones, marble or wood;
- allow the product to dry and protect all adjacent surfaces and objects;
- absolutely avoid contact and mixing with chlorine products (e.g. variquine or bleach);
- not to be used on acid-sensitive surfaces such as (e.g.) marble, grit, travertine and limestone in general and metal surfaces (steel, chrome-plated tap and drain surfaces, brass and aluminium);
- immediately remove any product splashes from acid-sensitive surfaces and rinse thoroughly. If in doubt, test compatibility with materials in a small part hidden before use.

### NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present, and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

#### PACKAGING:

- 1 lt Plastic bottle.

#### YIELD:

- Depending on the use.

#### TECHNICAL DATA:

- Physical state: clear yellowish dense liquid.
- Specific gravity (g/cm<sup>3</sup>): 1,06
- pH (20 ?? C) of the pure product: 0
- Flame point (ASTM): non-flammable.
- Solubility in water: total.

#### STORAGE:

Keep the product well closed at temperatures between 0 and +30 °C, away from heat sources, and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.
