

SANI-KAL BIO

ECOLOGICAL DESCALING DETERGENT FOR CERAMICS, SANITARY WARE AND TAPS

User guide

DESCRIPTION:

Descaling detergent solution with controlled action.

FIELDS OF APPLICATION:

For the descaling of limestone on all surfaces resistant to acids such as: sanitary ware, taps, showers, ceramic tiles, glass and stainless steel.

CHARACTERISTICS:

SANI-KAL BIO is a descaling detergent with controlled action for the cleaning of ceramics, sanitary ware, taps, glasses and stainless steel.

SANI-KAL BIO:

- is a detergent based on natural acids (lactic acid) and has a rapid biodegradability;
- removes from surfaces large limestone deposits, urine and rust stains, soap residues;
- does not fumigate, does not contain hydrochloric acid or phosphoric acid;
- leaves the surfaces clean, shiny and bright.

Do not use on slate, marble, travertine, polished grits and materials not resistant to acidic substances.

INSTRUCTIONS FOR USE:

- Ready to use;
- Spray the product directly on the surface or on a soft cloth/sponge;
- Leave for a few minutes and then rinse with water.

PRECAUTIONS:

- Do not use SANI-KAL BIO on slate, marble, travertine, polished grits and materials not resistant to acidic substances.

NOTES:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.
