

ROBOGRES

CONCENTRATED DETERGENT

User guide

DESCRIPTION:

Concentrated cleaning solution based on water, glycols, alcohols, anionic and non-ionic surfactants and perfume.

FIELDS OF APPLICATION:

- For routine cleaning of all hard surfaces carried out with robot scrubbers.

CHARACTERISTICS:

Characteristics and use:

ROBOGRES is a super-concentrated detergent for floor-cleaning robots for the routine cleaning of porcelain and ceramic floors.

ROBOGRES:

- cleans thoroughly prevents the formation of streaks and patinas without leaving residue on porcelain stoneware, leaving a delicate, fresh floral scent in the room;
- is effective even at very low concentrations of use, does not foam and evaporates quickly;
- can be used on all opaque, lapped or polished porcelain stoneware and ceramics;
- is a pH-neutral floor cleaner formulated to reduce the risk of allergic reactions;
- it can be used with all types of floor cleaning robots.

On porcelain tiles where the 'patina of use' (opaque halos against the light) is already present, it is advisable to carry out an extraordinary wash with POWER DET and TAMPONE BLU before using ROBOGRES.

INSTRUCTIONS FOR USE:

- Dilute 15 ml of ROBOGRES 500 ml of water (Use the dosing cap on the packaging)

In the case of very limy water in the domestic water supply system, it is recommended to use distilled water to prevent clogging of the robot tank and unwanted limescale residue on the floor (formation of patinas and halos). Alternatively, rinse the tank regularly (e.g. every week).

PRECAUTIONS:

Do not exceed the specified mixing ratio to avoid the formation of halos and undesirable streaks.

NOTES:

Our indications are based on current research knowledge and are intended to give the best guidance to the buyer-user. However, such indications require examination and testing prior to the areas of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and field of use. MARBEC Srl accepts no liability for the incorrect use of its products.

WARNINGS:

WARNINGS: DANGER

Hazard statements: Causes serious eye irritation.

Precautionary statement: Keep out of reach of children. – Wear eye protection/face protection. – If eye irritation persists: Get medical advice/ attention.

Ingredients according to Regulation (EC) No. 648/2004

Non-ionic surfactants <5%, Anionic surfactants <5%, Perfume, Preservatives.

UFI: QKC0-80PP-E00D-Y7GD

PACKAGING:

- 1 litre PE bottle in box 6 pcs;

YIELD:

With 1 litre of product, more than 30 litres of cleaning solution can be produced, which is useful for washing about 900 square metres of surface area.

TECHNICAL DATA:

Physical state: clear liquid.

Colour: pink.

Specific weight (g/cm³): 1

pH (20°C) of pure product: 7

Flash point (ASTM): non-flammable.

Scent: Floral

STORAGE:

Store the product tightly closed at temperatures between 0°C and +30°C. Stored in this way, the product has a shelf life of 2 years.
