

ROBOPARQUET

CONCENTRATED DETERGENT

User guide

DESCRIPTION:

Concentrated cleaning solution based on water, glycols, alcohols, anionic and non-ionic surfactants and perfume.

FIELDS OF APPLICATION:

For the ordinary cleaning of all painted, oiled and/or waxed wooden and parquet surfaces carried out with a floor-cleaning robot.

CHARACTERISTICS:

ROBOPARQUET is a super-concentrated detergent for floor-cleaning robots for the ordinary cleaning of wooden and parquet floors.

ROBOPARQUET:

- cleans thoroughly, prevents the formation of streaks and patinas without leaving residues that are harmful to the wood and its finishes. It leaves a delicate and fresh floral scent in the rooms;
- it is effective even at very low concentrations of use, without creating foam and has rapid evaporation;
- it can be used on all types of painted, oiled and/or waxed wooden floors;
- it is a neutral pH floor detergent formulated to reduce the risk of allergic reactions;
- it can be used on all types of floor-cleaning robots.

INSTRUCTIONS FOR USE:

- Dilute 15 ml ROBOPARQUET of product in 500 ml of water (Use the measuring cap of the package)

In the case of very calcareous water present in the domestic water supply, it is recommended to use distilled water to avoid clogging of the robot tank and unwanted limestone residues on the flooring (formation of patinas and halos). Alternatively, rinse the tank regularly (e.g. every week).

YIELD: 1 lt of product makes more than 30 lt of detergent solution useful for washing approximately 900 m2 of surface.

PRECAUTIONS:

Do not exceed the indicated mixing ratio to avoid the formation of halos and unwanted streaks.

NOTES:

Our indications are based on current research knowledge and are intended to provide the best indications to the purchaser-user. However, these indications require preliminary examinations and tests on the fields of use, the types of materials present and the various application conditions. The user decides autonomously on the suitability and field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products.

WARNINGS:

WARNINGS: WARNING

Hazard statements: It causes severe eye irritation.

Precautionary statements: Keep out of reach of children. – Protect your eyes/face. – If eye irritation persists, seek medical attention.

Ingredients compliant with Regulation (EC) No. 648/2004:

Non-ionic surfactants <5%, Anionic surfactants <5%, Perfume, Preservatives.

PACKAGING:

1 lt PE bottle in box of 6;

YIELD:

With 1 litre of product you can make more than 30 litres of cleaning solution, useful for washing approximately 900 m2 of surface.

TECHNICAL DATA:

Physical state: clear liquid.
Color: pink.
Specific weight (g/cm3): 1
pH (20°C) of the pure product: 7
Flash point (ASTM): non-flammable.
Fragrance: Floral

STORAGE:

Store the product tightly closed at temperatures between 0°C and +30°C. The product stored in this way has a shelf life of 2 years.
